

## TFW FOOD SERVICES CASHLESS CATERING

*We are delighted to offer this innovative solution to your school.*

Cashless payments give you, as a parent, full control over your child's spending on school lunches. No more looking for change, no more wondering where and what they are eating...

With the cashless system comes a simple and innovative way for you to pay for your child's nutritious and healthy school meals supplied by TFW Food Services.

### **How it works:**

The first step is to get a TFW contactless card to use in the system. To do this you just open an online account with TFW...

- Through an online account you manage your child's card. You can manage multiple children's cards from just one account.
- The card is topped up online using a secure payment gateway with processing done by Sage Pay. Example top up by €20.00
- At the school your child selects their meal and simply presents the card to the cashier who taps the card to a reader.
- The card balance is updated with the cost of the meal. Example €2.50
- Back online you can see the transaction and the card(s) balances in your account.
  - Super Healthy Lunch | €2.50 | 02/09/2019 | 12:35
  - Balance €17.50
- Top up when you want.
  - Thank you, you have topped up card no. TFW-2417-8512 with €20.00
  - €20 Top Up | 15/09/2019 | 03:30 | TFW-2417-8512
- Set a daily spending limit.

***Know that your money is being spent the way you want.***

***Lost cards can be reported online and quickly cancelled.***

***New cards issue the next day!***

**Privacy matters:** Your online account is secured on a server offering SSL encryption and is fully compliant with data regulations including EU GDPR guidelines. No home address, telephone number or bank card details are stored on the server.
